TRADING CO.

10<sup>TH</sup> EDITION FEB. 2026

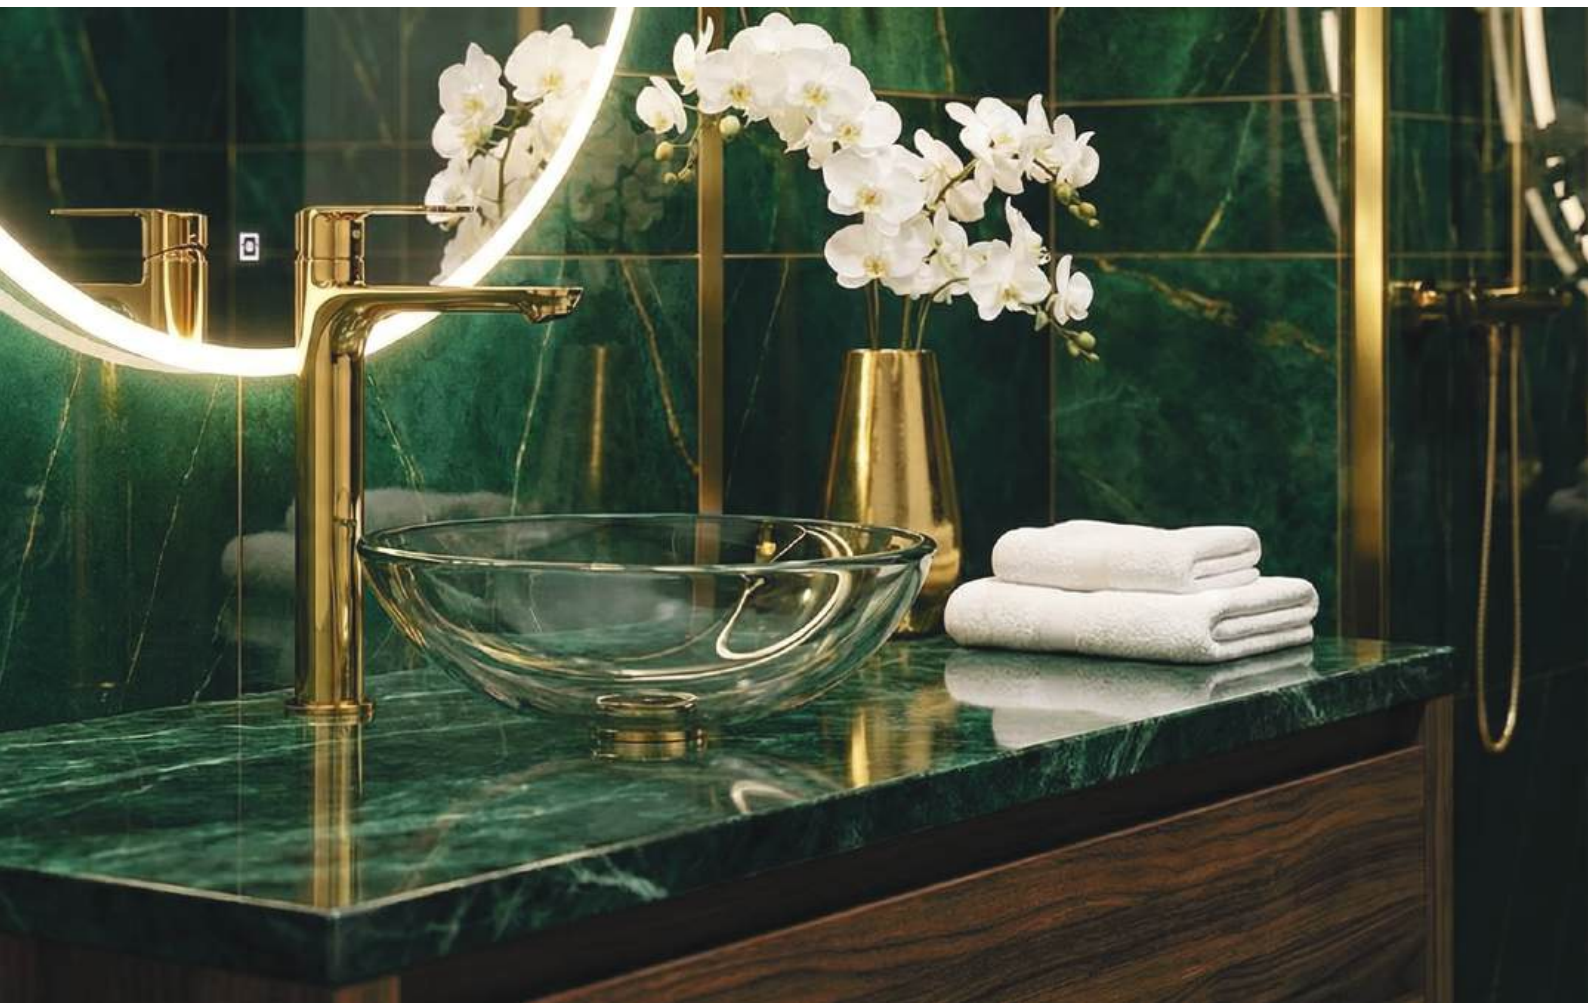

Established 1978 | Mumbai

Founded by Shri S. K. Jain and later strengthened under the leadership of Mr. Pankaj Jain, Pankaj Trading Company has evolved over four decades into a trusted, third-generation distribution enterprise in bathroom fittings, sanitaryware, valves, and integrated plumbing solutions.

Serving as distributors and channel partners to 25+ leading brands, we work closely with architects, developers, contractors, and wholesalers, supporting residential, commercial, and institutional projects across Mumbai and its suburbs.

Our differentiation lies in specification-driven supply, execution reliability, and commercial discipline—delivering consistent outcomes on site, on time, and at scale. Supported by a resilient distribution network and a curated product portfolio, we operate at the intersection of trust, availability, and value engineering.

Guided by legacy and focused on the future, we continue to evolve with a clear mandate: to professionalize, scale responsibly, and remain uncompromising on credibility.

Legacy is not inherited. It is earned, every day.

Pankaj Trading Company was established on principles that remain non-negotiable even today  
integrity in trade, reliability in execution, and respect for relationships.

Over four decades, the business has been shaped by continuity of leadership and clarity of purpose.  
While markets, products, and systems have evolved, our commitment to long-term partnerships and  
disciplined growth has remained constant.

With the active involvement of the third generation, the company is now focused on strengthening  
governance, elevating operational standards, and preparing the organization for its next phase of  
growth – without losing the entrepreneurial agility that defines us.

We remain grateful to our trade partners and associates for their trust, and look forward to building  
enduring value together.
